VINTAGE LINENS COLLECTION

This is the first collection of premium original fabrics made by MINDTHEGAP. We have been always thrilled by the idea of making good quality textiles that can inspire people and change their lifestyles. Actually this is all about when you want to create something to last and delight your customers. We believe that natural linen is the most precious and long lasting fabric that exists and this is why we prefer to use this fabulous fiber. Inspired by the vintage textiles that can be found in flea markets or in antique stores, we have created a unique collection of authentic home linens.

We chose two different design themes with two different colour schemes. One is the Tropical Mood story showing quirky patterns with funny monkeys and parrots mixed with tropical greenery and loads of green hues. While the Nomad Fabrics is a selection of beautiful vintage nomadic textiles with rich colours and bold motifs. Both collections were made on heavy weight linens with large thread and rustic texture. And to achieve an authentic vintage effect and more softness, we added a stonewashed finishing to all our linens.

~With love for comfort~

PROUDLY MADE IN TRANSYLVANIA

[NOMAD FABRICS]

Somewhere deep in our hearts we all have a bit of a hippie soul. We are nomads wandering around the world, taken by our dreams in unknown marvellous places. These thoughts were the source of inspiration for the collection called suggestively Nomad Fabrics. A free-spirited story with wild and colourful folk patterns collected from different parts of the world to inspire and create authentic home interiors. There are 6 designs in this collection showing different pattern styles from Transylvanian Gypsies culture, Hindustan and the nomadic people of Eastern Asia.

GYPSY OCHRE Linen fabric (sofa) / #FB00002
LAKAI Linen cushion 50x50cm / #LC400I2

Our fascination with textiles of the world has made us searching for undiscovered or less popular vintage fabrics that could be transposed in patterns. Remember the stunning Kilim carpets or the hand woven wool blankets made with amazing natural colours. Not choosing a very precise place for inspiration helped us to collect fabrics made with different styles and techniques, but with a similar appearance.

[PREMIUM QUALITY LINEN]

The collection is made on two different linen grades, both 100% natural. One is the 420 gm cloth suitable for soft furnishing, cushions or accessories and the other one is 540 gm and is proper for upholstery, draperies and any other kind of home decor. Both fabrics are stonewashed finished for more softness and to get a vintage look.
