## GOING LOHKO

Scion's turning 10 - Hip Hip Hooray!  
To celebrate a decade of upbeat design for cheerful homes, we've reworked a real fan favourite pattern. Meet the smash hit, main attraction, bee's knees and all-round gorgeous arrangement of boulders that is Lohko. This class act first burst onto the scene (and onto our walls) in 2016, loved for its retro style and simple architectural feel.

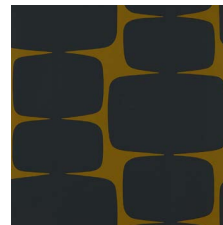

Charlotte Gibson, lead Scion designer, says "We've been overwhelmed by the love Lohko inspires in Scion fans the world over. That's why we're so pleased to offer these fresh wallpapers for this contemporary-retro classic to celebrate our 10th birthday!"

Having found a cherished place in happy homes and hearts for 10 years, we've put our creative hats on to show Lohko in never-seen-before styles. Contemporary colour stories, new geometric arrangements, but the same charming Lohko look. 12 new wallpapers, coming your way!

Let's go loco for Lohko.
