

The image features four decorative pillows with various patterns: a blue and white abstract design, a tan and white geometric pattern, a blue and white geometric pattern, and a blue and white abstract design. They are arranged on a surface with a large-scale floral pattern in warm tones. The text 'HARLEQUIN' is centered at the top in a large, white, serif font, and 'SIGNATURE' is centered below it in a smaller, white, sans-serif font.

HARLEQUIN SIGNATURE FABRIC & WALLPAPER AW26

HARLEQUIN REIMAGINES BEST-LOVED DESIGNS WITH SIGNATURE: A FABRIC AND WALLPAPER LAUNCH FOR AW26

Celebrating Harlequin's most cherished designs, Signature presents fresh takes on the brand's recognisable patterns with updated colours, refined scales, and original material bases, breathing new life into them while preserving their original charm. For the first time, the collection also includes super wide-width wallpaper murals that span nearly triple the surface area of a standard roll. They transform a space with seamless scale and heightened visual impact.

Guided by a curated palette, the collection strengthens cohesion across the Harlequin portfolio. New wallpapers, drapery and upholstery fabrics work harmoniously with the brand's existing ranges, presenting opportunities for pairing, layering, and cross-category styling.

Flora Daly, Lead Designer at Harlequin, says: "Signature is about reinvention. We have taken our classics and reinterpreted them with a new-age perspective. With mixed weave techniques, scales, and colour palettes, the collection feels both familiar and confidently new. The collection is more than a revival, it's a contemporary reinterpretation of Harlequin's design DNA."

ALL DESIGNS ARE CREATED IN THE HARLEQUIN DESIGN STUDIO. ALL PRINTED FABRIC AND WALLPAPER IS PRODUCED AT THE BRAND'S HISTORIC UK FACTORIES IN LOUGHBOROUGH AND LANCASTER.

Taking inspiration from contemporary art and global influences, richly layered designs are revealed, providing endless inspiration for modern-day interiors that revel in self-expression.

WALLPAPERS

ALVARO

Reminiscent of palm trees swaying in the gentle breeze, Alvaro is a painterly design that's digitally printed. The motif was originally interpreted as a fabric and has now been reimagined as a wallpaper. With the introduction of new colours, the fresh, white ground contrasts beautifully with the subtle tones of layered leaves.
