POMONA FABRIC

**STEP INTO POMONA – SCION'S NEW FABRIC COLLECTION,
WHERE NATURE'S WONDER TAKES CENTRE STAGE
AND CREATIVITY GROWS FREELY.**

Inspired by the lush beauty of British greenhouses and the wildlife that thrives within them, Pomona continues Oakham's design story with a light and playful spirit. Named after the goddess of fruitfulness and abundance, the collection is a joyful celebration of the natural world.

From richly textured weaves and delicate embroideries to printed drapery fabrics with subtle texture, Pomona brings together archival influences and fresh Scion designs. Outdoors-inspired motifs are reimagined in an uplifting palette, forming a considered collection of coordinating patterns that invite nature indoors in the most imaginative way.

Designed to energise interiors, upholstery fabrics deliver bursts of colour and Scion's signature sense of play. Lively geometrics sit alongside fresh interpretations of herringbones and stripes, creating designs that are made for effortless layering, mixing, and matching across the wider collection and Scion portfolio.

Characterful animals – from butterflies to doves – mingle with fantastical florals, repeating forms, and classic checks and stripes. Together, they form an upbeat, curated collection that feels unmistakably British, is sprinkled with whimsy, and is complemented by matching and coordinating wallpapers.

Hares introduces Scion's newest playful icon, leaping across the fabric in a simple repeat. On The Vine brings the collection's story of fruitfulness to life through a dreamlike interpretation of climbing foliage, while Daisy Dots offers something truly distinctive – an ethereal wide-width sheer delicately embroidered with ditsy florals. Pomona also welcomes back Concentric, a bestselling upholstery favourite perfect for layering, and introduces Ribble, a charming small-scale geometric full of character.

"This collection builds on Oakham's contemporary, fresh style – it celebrates outdoor living, greenhouse gardens, and the joy of bringing nature into the home. There's a playful sense of whimsy throughout, from abundant fruits and florals to characterful, typically British detail. It's a collection rooted in wit and warmth."

Claire Greenfield, Lead Designer.

POMONA WALLPAPER

**STEP INTO POMONA – SCION'S SS26 COLLECTION
BRINGING NATURE'S WONDER AND CHARM TO THE FORE.**

Inspired by the lush beauty of British greenhouses and the wildlife that thrives within, Pomona is a spirited continuation of Oakham's story – a playful nod to the Goddess of fruitfulness and abundance after which it is named.

Archival treasures and new Scion designs collide to create outdoors-inspired motifs drenched in an excitingly fresh palette. Coordinating patterns with a dash of whimsy bring nature to the home in the most imaginative way.

Designs are a celebration of craftsmanship; they're hand-painted to capture the sweep of the brush, printed for depth, and developed for a fabric-like illusion – resulting in wallpaper that feels alive with joyful colour and tactility.

Characterful animals – from butterflies to doves – mingle with delicate florals, geometric patterns and classic checks and stripes to create an upbeat, curated collection that feels quintessentially British and transports you into the great outdoors.

Hares introduces Scion's newest playful icon, seen leaping across the design in a simple repeat pattern, while On The Vine represents the collection's narrative of fruitfulness and its fantastical take on nature. Pomona Fig presents Scion's first-ever mural wallpaper: a statement motif that plays with scale with its bold graphics and whimsical interpretation of fig leaves.

"This collection feels like Oakham's natural sister – carrying forward that distinctive British spirit while evolving the palette and layering in more texture. It celebrates outdoor living, greenhouse gardens, and the joy of bringing nature into the home. There's a playful sense of whimsy throughout, from abundant fruits and florals to characterful, typically British details, all brought to life through hand-painted artwork. It's a collection rooted in wit and warmth – key pillars of Scion's design DNA."

Claire Greenfield, Lead Designer.

HANGING INSTRUCTIONS

This design is made up of four 300cm high drops of wallpaper, supplied and printed as one continuous roll measuring 52cm in width.

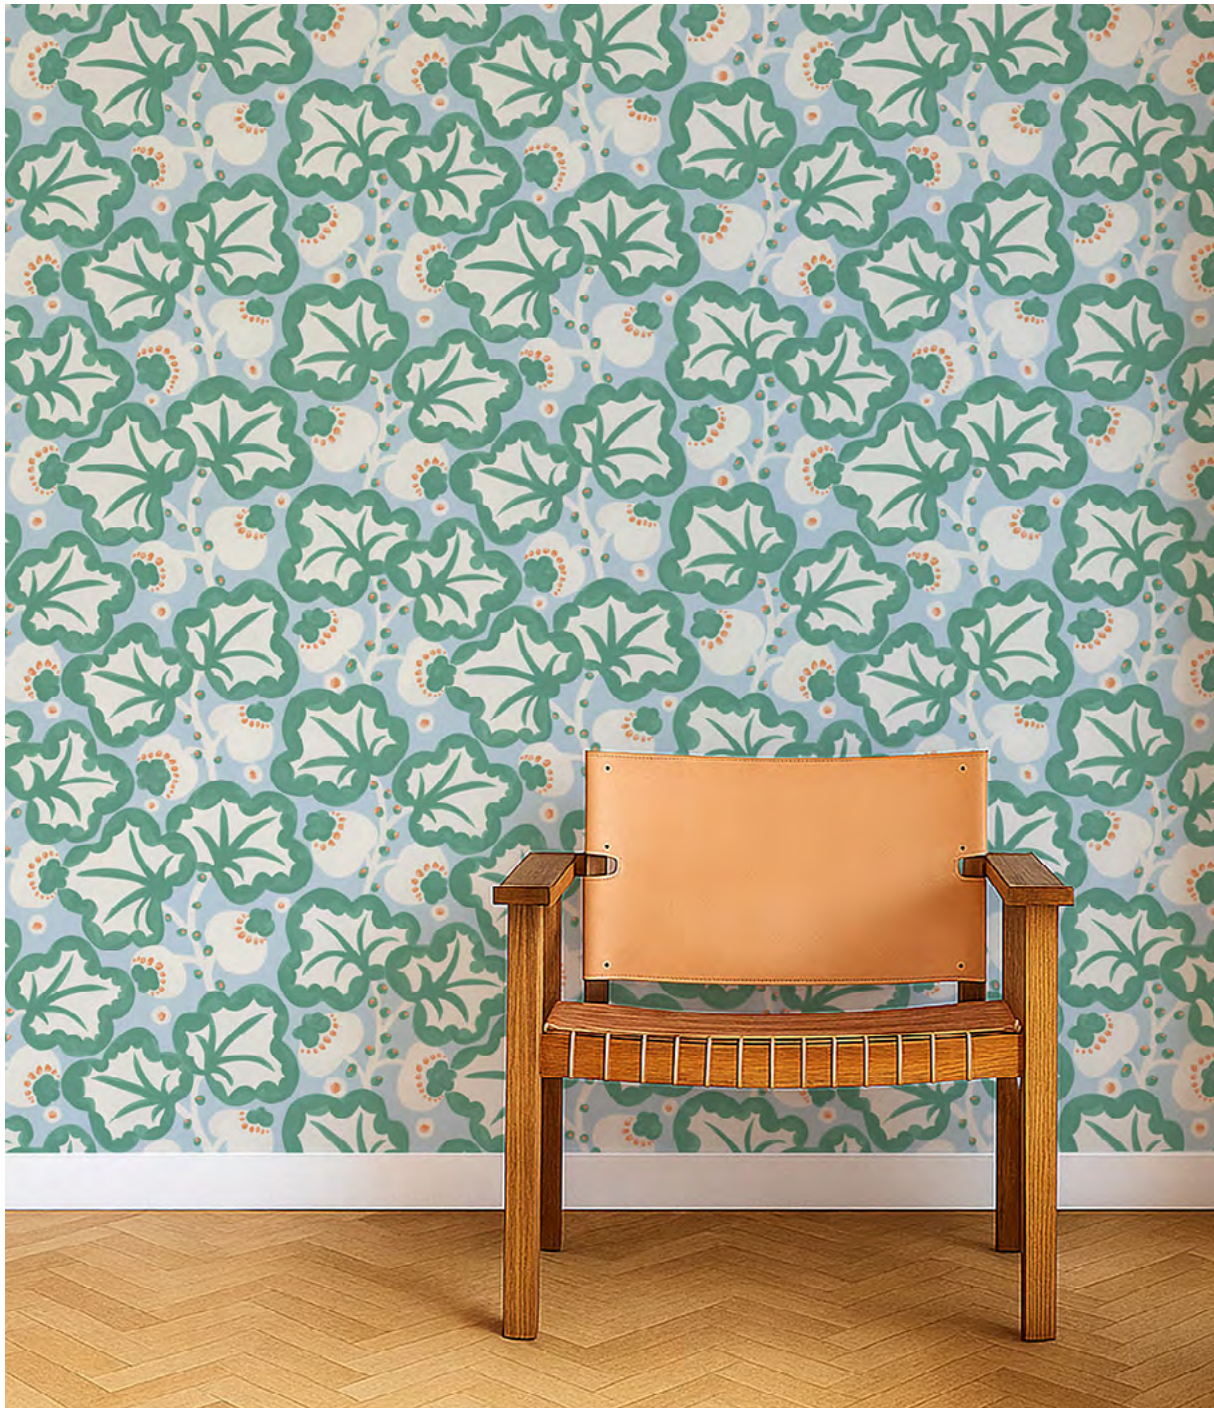

This wallcovering is printed digitally onto a non-woven base, which is strong and flexible, allowing the wall to be pasted rather than the substrate itself.

The individual drops are indicated by a cut line for ease of hanging.

The wallcovering can be tailored to room height by removing any excess from the top and / or bottom of each length.

To achieve the best result we recommend the use of a professional decorator experienced in hanging wide width papers.
